

SIDEWALK BRIDGING/SIDEWALK SHEDS

- All sidewalk bridging/sidewalk sheds require a Building Permit.
- Sidewalk bridging/sidewalk shed drawings shall be prepared by a NYS Licensed Design Professional indicating type, anchoring and location of bridging.
- Site Plan indicating locations of building entrances, exits, and pedestrian access areas at which bridging will be located.
- Two (2) Building Permit applications, Contractor's name and insurance (w/c, liability, and hold harmless).
- Bridging shall comply with NYS Building Code (2010) Chapter 33 Safeguards During Construction and Part 23; 23-1.18 of NYS Department of Labor Protection in Construction, Demolition and Excavation Operations.
- If sidewalk bridging/sidewalk sheds are to be located in City of Yonkers right of way, permits shall be filed with the City of Yonkers Engineering Department (377-6217).
